

Twin City Private Wealth, LLC
Client Relationship Summary

Introduction

Twin City Private Wealth, LLC is an investment adviser registered with the Securities and Exchange Commission. Investment advisory services, brokerage services, and fees differ, and it is important for you to understand these differences. Free and simple tools are available to research firms and financial professionals at www.Investor.gov/CRS, which also provides educational materials about broker-dealers, investment advisers, and investing.

What investment services and advice can you provide me?

We offer investment advisory services, including portfolio management, financial planning services, and participant account management services to retail investors. Our financial planning services generally are performed as part of our portfolio management services, and typically address areas such as general cash flow planning, retirement planning, insurance analysis, risk analysis, performance analysis, and cost analysis to help us assess your financial circumstances and to more effectively develop your investment plan.

Our standard investment advisory services include periodically monitoring and reviewing your portfolio (or the portion of the portfolio under our management) to ensure that your portfolio is meeting your stated goals and investment plan. When appropriate and in accordance with your investment plan, we may utilize one or more sub-advisers to manage your assets and assist you with understanding your investment portfolio who will be granted discretionary trading authority.

Our participant account management services involve the use of Pontera, a third party platform, to facilitate discretionary management of held away assets, such as defined contribution plan participant accounts. Once your account is connected to the platform, we will review your current allocations and may re-balance your accounts after taking into consideration numerous factors.

Our investment advisory services are offered on a discretionary basis. When we have discretion to manage your portfolio, we will execute transactions on your behalf based on your investment plan without asking you in advance. You may impose certain restrictions on the management of your portfolio. Restrictions may adversely affect the composition and performance of your portfolio, and we are not able to accommodate every request.

We do not offer proprietary investment products and generally seek to manage your portfolio using an array of investments, including primarily common stocks, exchange-traded funds, mutual funds, fixed income securities, and structured products. We do not have a minimum required account size to provide investment advice. ***For additional information, please see Items 4, 7, and 8 of our Form ADV, Part 2A Brochure (“[Brochure](#)”) available at <https://adviserinfo.sec.gov/firm/summary/315836>.***

Questions to Ask Us:

- **Given my financial situation, should I choose an investment advisory service? Why or why not?**
- **How will you choose investments to recommend to me?**
- **What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?**

What fees will I pay?

We will charge you an annual fee calculated as a percentage of the total value of the assets that we manage for you. Our portfolio management fee will be individually negotiated with you and is generally subject to a maximum fee of 1.50%, depending on the level of engagement. Portfolio management fees generally include any sub-advisory fees, are typically billed quarterly in advance, and will be deducted directly from your account(s). However, your agreement with us may provide different fee and billing terms.

Because we typically charge an asset-based fee, the greater the value of your assets under our management, the more you will pay in actual dollars of management fees. We therefore have an incentive to encourage you to increase the amount of assets in your account(s) under our management.

In addition to our fees, certain investments you own (e.g., mutual funds, exchange-traded funds, and other pooled investment vehicles) will charge additional management fees and other expenses, which are ultimately borne by you. You will also be required to pay any fees and expenses charged by your custodian and/or broker-dealer, which may include brokerage commissions, transaction fees, and wire/electronic fund transfer fees. **You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. For additional information, please see Items 5 and 12 of our [Brochure](#).**

Questions to Ask Us:

- **Help me understand how these fees and costs might affect my investments.**
- **If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?**

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Below are two examples to help you understand what this means.

Certain custodians that we recommend to you make certain services available to us, free of charge. These services include software and other technology, consulting, and access to publications and research reports. This presents a potential conflict of interest in that we may recommend opening or maintaining accounts with certain custodians based on our interest in continuing to receive these free services.

Some of our advisers are licensed to sell insurance and may recommend the purchase of certain insurance products. This presents a conflict of interest, because these advisers would be entitled to receive compensation in connection with the sales of these products. You are not obligated to use any agent or company for insurance product purchases. Insurance compensation is separate and distinct from all investment advisory fees charged by us. *For additional information, please see Items 10, 11, 12, and 14 of our [Brochure](#).*

Questions to Ask Us:

- **How might your conflicts of interest affect me, and how will you address them?**

How do your financial professionals make money?

As owners, our advisers receive profits distributions of the firm. This arrangement presents a conflict of interest in that we are incentivized to encourage you to increase the amount of assets in your account(s) managed by us in order to increase the fees you pay and therefore increase firm profits.

Do you or your financial professionals have legal or disciplinary history?

No. Please visit www.Investor.gov/CRS for a free and simple search tool to research us and our financial professionals.

Questions to Ask Us:

- **As a financial professional, do you have any disciplinary history?**
- **For what type of conduct?**

Additional Information

For additional information about our investment advisory services, or to request copy of our latest Client Relationship Summary, please visit our website at <https://twincitywealth.com/> or call us at (336) 930-9494.

Questions to Ask Us:

- **Who is my primary contact person?**
- **Is he or she a representative of an investment adviser or a broker-dealer?**
- **Who can I talk to if I have concerns about how this person is treating me?**
